

October 2008

Club night October 23rd
 7:30 at Taonui Aerodrome
 Walk around visit of Brendan Deer's almost restored full size Spitfire.
 Maybe the last visit of the Spitfire at Taonui before completion, which is expected mid next year.

Calendar November
 2 Glider
 9 Vintage
 10 Indoor @ Arena
 16 Sport
 23 Scale
 27 Club night
 30 Aerobatics

Notes from Your Committee

As an outcome of the successful quest for grant monies to cover totally the purchase of our new mower, and the proceeds from the sale of the old mower, our finances have improved markedly as the year has progressed- and helped too, from the successful open day in the autumn.
 On the basis that any funds over and above a prudent level of reserves should be used for the benefit of our membership, the committee proposing to purchase a reserve trainer with associated radio links, as well as a replacement glider, also with an improved radio.
 The idea behind the latter is that the availability of a better club glider should entice more members to try this avenue of the sport.
 Coming up: a spring working bee to spruce up the clubhouse and surrounds, plus rolling of the strip-probably soon after Labour weekend.
 Also a new club website is being built, which should provide an improved profile for the club.
